

Well you can tell by the way they fly not walk,  
They're a bumblebee, they cannot talk,  
Buzzin' loud, in a swarm,  
Been flyin' round, since they were born.

It's not all right, it's not ok,  
And you can't look the other way,  
And we must try to understand,  
The terrible effects of man,

Drinking lots of coffee and eating lots of choccy,  
if they're stayin' alive, stayin' alive,  
They're tiny and they're hairy, and if they're  
gone it's scary, so they're stayin' alive, stayin'  
alive,  
Ah ah ah ah stay in a hive, stay in a hive,  
Ah ah ah ah stay in a hiiiiiiiiiiiiiiiiiiiiive

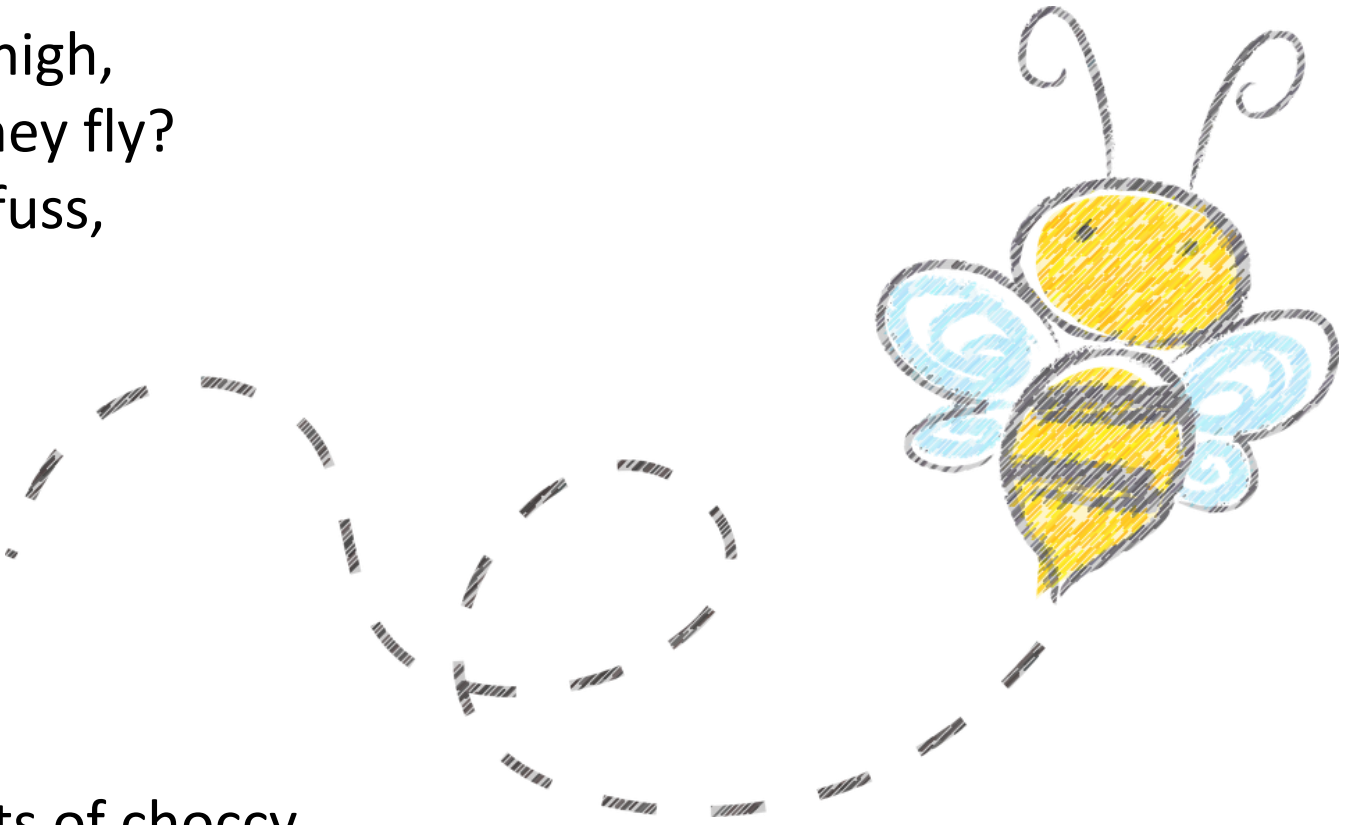

Yeah they feed on flowers low and high,  
And with such tiny wings, how do they fly?  
Workin' all day long, they cause no fuss,  
If they are gone, it's bad for us,

It's not all right, it's not ok,  
And you can't look the other way,  
And we must try to understand,  
The terrible effects of man,

Drinking lots of coffee and eating lots of choccy,  
if they're stayin' alive, stayin' alive,  
They're tiny and they're hairy, and if they're  
gone it's scary, so they're stayin' alive, stayin'  
alive,

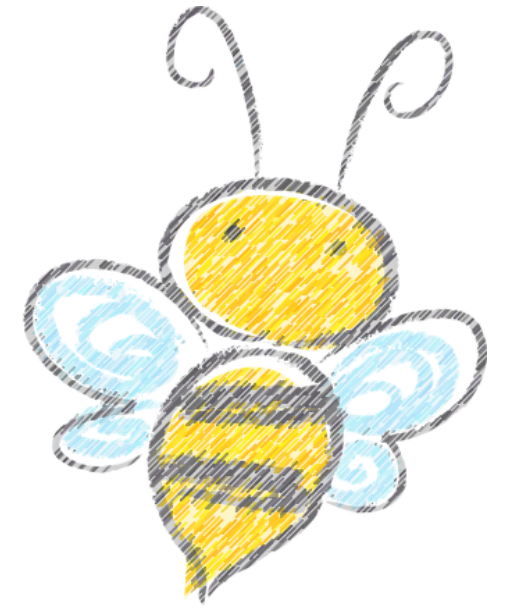

Ah ah ah ah stay in a hive, stay in a hive,  
Ah ah ah ah stay in a hiiiiiiiiiiiiiiiiiiiiive

No hope if they're dead, somebody help them,  
Somebody help them yeah,  
No hope if they're dead, somebody help them  
yeah,

Yeah some build nests and some will mate,  
But all of them will pollinate,  
Come on man, there's so much room,  
So make a space for flowers to bloom,

It's not all right, it's not ok,  
And you can't look the other way,  
And we must try to understand,  
The terrible effects of man,

Drinking lots of coffee and eating lots of choccy,  
if they're stayin' alive, stayin' alive,  
They're tiny and they're hairy, and if they're  
gone it's scary, so they're stayin' alive, stayin'  
alive,  
Ah ah ah ah stay in a hive, stay in a hive,  
Ah ah ah ah stay in a hiiiiiiiiiiiiiiiiiiiiive

No hope if they're dead, somebody help them,  
Somebody help them yeah,  
No hope if they're dead, somebody help them  
yeah.
