Cars idling during school drop off or at pick up generate up to a **300% increase** in **harmful particles** on school premises. **Children breathe** up to **60% more** air **pollutes** than adults during the school run because the air they breathe is closer to vehicle exhausts. **Outsides schools** at pick up and drop off the concentration of **pollution is higher** than that on a **motorway**. These particles are **harmful** for **you** and your **children** and linked to numerous serious health conditions and are bad for our environment. **Please switch off your engine.**

Cygnets news

The Cygnets have had a wonderful week in the sunshine.

They have enjoyed learning about Jack and the bean stalk. This week they will be enjoying garden games, their big school photo and we will

also be taking time to visit our new class rooms.

Swans News

The swans had a lovely time on their new intake day, exploring their new classroom and meeting their new teachers and teaching assistants. Please keep a look out for a letter being sent out today about 'school dinner week' over in the big school hall.

This week the children will be learning all about Pirates.

We are also super excited to take part in the schools design and technology week where we will be making boats and then sailing them for our year 5 friends who in September will be our school Buddies.

Cygnets 2 News

Cygnets 2 have been thinking about the story of Handa's Surprise and trying lots of new and exciting fruits. This week they will be continuing the theme as well as taking lots of mini trips over to the Swan's garden and classroom. Cygnets will also be taking part in the schools Design and Technology week and we looking for donations of empty butter or margarine tubs please. Many thanks.
